### **All Parents Meeting**

Our meeting this month will be on May 10<sup>th</sup> at 6:30 PM. The meeting will be in Portable A and there will be babysitting in Portable D. Hope to see you all there!

### **Pro D Day Tuesday May 18<sup>th</sup>**

Pack your bags for a day at Witty's Lagoon! Please bring towels to sit on, sunscreen, a hat, full water bottle and a change of clothes. Please make sure your child wears weather appropriate clothing and good walking shoes. It's about a 20 minute hike from the bus to the beach! Sand toys are welcomed but please make sure their names are on them and children must be able to carry them on their own. Please make sure your child is at club by 9:00 AM ready to go as we will be leaving right away to have extra time at the beach. Also, it is helpful to have us out the door faster if you could please make sure your child is sun screened before bringing them to club!

### **Victoria Day**

The club will be closed on May 21<sup>st</sup> for Victoria Day. Enjoy your long weekend!

### **Junior News (Portable A)**

Hooray for sunshine! We are in the final stretch of the school year and will be spending most of our time outdoors. You must have a hat, sunscreen and a water bottle every day to play outside. Please leave them in your cubby or in your backpack. We have new themed crafts, games, and activities planned to keep us busy this month as well as a week getting messy making something special for Mother's Day. No peeking moms!

### **Intermediate News (Portable D)**

Now that May has arrived it's time to make our portable look a little more spring like with decorating the walls with 3d butterflies and flowers. We will also be celebrating Mother's day with making something extra special for our mom this month. The science experiments were a big hit in March so I added a few for the month of May. You will be making a cloud in a jar as well as making water walk! We do have a few out trips this month which fall on the 4th and the 25th; we are heading to the intermediate playground for an afternoon of fun. Also on the 17th we will be getting creative with face paint so expect your child to come home a little decorated. With the weather changing we are asking for everyone to please bring in a few important sun safety items every day to club, a hat, a water bottle and sunscreen. There is a container that your child may leave their sunscreen in and hooks available for hats but please label all items.

### **Senior News (Gym)**

We have finally surpassed April showers and have made it to the nice warm days of May! Remember to keep bringing those water bottles, sunscreen for those extra sunny days and a thin rain jacket just in case we haven't quite escaped the rain. This month we have a lot more games planned in hopes we will be spending most of our days outside. Back by popular demand, we have our famous talent show happening at the end of the month. We will have one whole day to prepare and our performances spread out over 2 days. So time to get those creative minds going again on what talents you want to showcase! A heads up to parents we will be in the Library Thursday, May 3rd and the 16th.
